PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1a (DIA). The photographic analysis for this particular report was performed by the CIA Photographic Intelligence Division.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training areas or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

SUMMARY

Slavyanka Army Barracks South is located immediately south of Slavyanka and is probably a storage depot possibly utilized by the barracks and training area at Peschanaya (Figure 1).

This installation covers approximately 195 acres and contains 1 probable administration building, 5 probable barracks, an open storage area, 12 storage buildings, 2 probable vehicle sheds, 20 support buildings, and an athletic

field (Figures 2 and 3).

The installation has been covered by KEYHOLE missions of interpretable quality. Comparative analysis from the initial coverage of this installation

indicates that 2 probable vehicle sheds and 3 general storage buildings were constructed. The installation appears to be occupied year-round.
